

No man is perfect—but one whiskey is, and that's

Handsome book, "America's Most Famous Distiller and His Product," sent free on request.

Cedar Brook

Cedar Brook is admitted to be the best whiskey in the world, even by its competitors. None deny its superiority.

Cedar Brook is the whiskey aristocrat. For 62 years it has stood all the tests of time and competition. Many have tried to equal Cedar Brook, but all have failed.

Cedar Brook is a product of the famous W. H. McBrayer distillery, located in the heart of the rich blue grass region of old Kentucky. It is made in the greatest whiskey producing section in the whole world.

Man and nature worked together to produce perfect whiskey and the result was Cedar Brook.

It is made by the old-time hand mashing method, from the very choicest grains and pure, crystal water. It has been made in the same competent and thorough manner for the last 62 years. We can say without hesitation that Cedar Brook is the finest whiskey the world has ever tasted.

8 Years Old Bottled in Bond

The Government requires all whiskey to be aged 4 years.

Cedar Brook is twice as old as the Government requires—that alone is enough to make it the best whiskey in the world. It costs us more to age it 8 years, but we have the satisfaction of knowing that we are making it better than any other—twice as good as most whiskeys.

Cedar Brook's unequalled purity makes it the ideal whiskey for all medicinal purposes. In no other brand of whiskey can be found all the medicinal virtues that are contained in Cedar Brook.

Cedar Brook is the best whiskey in the world for every purpose that whiskey is used.

Keep a bottle of Cedar Brook at home for emergencies.

Insist on Cedar Brook

Do not allow your dealer to give you a substitute. The Cedar Brook label on the bottle, the unbroken Government seal on the cork, is your protection.
